

What's working in the niche

PATTERN

Her all-time bangers are cheaper to make than they look: two of the three are text-on-screen 'value list / journey' reels set to small trending sounds — no filming, all value in the on-screen text and a long looping caption. Hooks are pure curiosity + a specific round number ('40K in 30 days', '10 hooks', '4 strategies'). The third is a broad spoken phone-hack demo for reach, captioned with the niche strategy. CTAs split two ways — engagement-bait ('drop "I'm next"') and comment-keyword lead magnets ('comment 57'), the latter alone driving 25,351 comments. Takeaway: low-production text+audio value lists with round-number hooks, monetized by a comment-keyword → DM funnel.

HOOK · ON-SCREEN TEXT + MUSIC (NO NARRATION)

My 40K in 30 days journey 📌 (on-screen text over a trending sound)

FORMAT

Text-On-Screen Value List

BREAKDOWN

A zero-production text-on-screen 'journey' reel set to trending audio that packs a full 30-day Instagram-growth playbook into the on-screen text + caption.

▼ TRANSCRIPT

(No spoken narration — a text-on-screen reel set to a small trending sound; the lyric audio is 'Every damn day I'm hustling...'. All value lives in the on-screen text + a long looping caption: her 30-day growth playbook — post 2 reels/day; research the audience's top goals/problems/questions and make reels about them; model a proven viral formula and add your spin; use strong TEXT hooks that are specific and use curiosity / a pain point / a desired result; trending sounds under 10K; optimise for COMMENTS over likes and reply with a question; pack value bombs so people save & follow; write a value-rich caption because the reel loops while they read; build a series; and ask people to take action everywhere. CTA: 'Drop "I'm next" in the comments.')

WHY IT WORKED

Curiosity + a big round-number result hook ('40K in 30 days'), near-zero production (text over a trending sound), and an engagement-bait CTA ('drop "I'm next"') drove 6K+ comments and 6.3M views.

HOOK · SPOKEN (SCREEN-RECORDING DEMO)

Here's an Instagram hack you might have missed.

FORMAT

Screen-Recording Demo

BREAKDOWN

A spoken iPhone hack demo (Control Center → Video Effects → Portrait On for a blurred filming background), captioned with her separate '4 reel strategies'.

▼ TRANSCRIPT

Here's an Instagram hack you might have missed. The next time you go to film a story or a reel, swipe down from the top of your screen, tap Video Effects on the upper left, then tap Portrait Off to Portrait On, then go back to your filming screen, and now you have this awesome blurry background. Save this for later and follow for more Instagram hacks.

WHY IT WORKED

The video is a broadly useful phone hack (max reach) while the caption delivers the niche '4 strategies' — the spoken hook is NOT the offer; reach is borrowed by the hack and funneled by the caption.

HOOK · ON-SCREEN TEXT + MUSIC (NO NARRATION)

Scroll-stopping hooks — 10 templates 📌 (on-screen text over a trending sound)

FORMAT

Listicle (10 Hook Templates)

BREAKDOWN

A text-on-screen listicle of 10 reusable hook templates set to trending audio, with a comment-'57' lead-magnet CTA.

▼ TRANSCRIPT

(No spoken narration — text-on-screen reel over a trending sound. The value is a swipe-file of 10 fill-in-the-blank hook templates in the caption: 1) Here's how I [got result] in 5 simple steps. 2) This may be controversial, but... 3) Top 5 tools for [result/topic]. 4) This is your reminder to... 5) Here's how you're finally going to [get result] in 2023. 6) If you're nervous about [topic], TRY THIS. 7) My favourite [topic] hack most people don't know. 8) Stop wasting time doing [behaviour]. Try this instead. 9) Top 3 mistakes that are costing you [outcome]. 10) Steal my [topic] strategy. CTA: comment '57' for the free Viral Hooks Cheat Sheet.)

WHY IT WORKED

A pure value swipe-file (10 hooks people screenshot) plus a comment-keyword lead magnet drove 25,351 comments — the keyword CTA manufactures comments, and comment volume is what the algorithm rewards with reach.
